

# Voyages Heron Island

## Great Barrier Reef Via Gladstone - Queensland

Voyages Heron Island is a true coral cay, located right on the Great Barrier Reef. The island is ribboned by sugar white sands, crystal clear waters and acres of brilliant coral with beautifully coloured marine life – a real nature lover's paradise.

Heron offers many activities such as guided island and reef walks, semi-submersible cruises and beach picnics. An amazing array of animal and bird life can also be discovered right throughout the year. And of course, Heron is world famous for its scuba diving and snorkelling.
